As a game with strong brand influence, Call of Duty Mobile has obtained a lot of resources support after being adapted into mobile game. The iconic multiplayer game map in call of Duty: black action and call of Duty: modern war is a sincere display of developers to players. Diversified game modes include big escape, 5v5 group war and sniper mode And other rich play methods to meet the tastes of players with different needs, so that the flavor of the game is more diversified; the various custom functions that make military fans crazy, also make people scrambling, dozens of famous characters, weapons, clothing, tattoos and equipment and other props are waiting for players to unlock, and more custom mode allows players to show their skills.

Call of Duty: Mobile emphasizes a tense and Real World War II experience. Compared with various versions on the home computer platform, this work has the same features in user experience and details as call of duty online.

As a mobile game mainly oriented by PvE and ordinary PVP, call of Duty: compared with the current popular chicken eating game Mobile is more concerned about the players' expe- rience of the details of the game and the real and tense perception.

The game picture of call of Duty: Mobile must be remarkable. As a masterpiece with 3A strength on the home computer, even if the mobile version is launched, it still maintains enough quality. All kinds of buildings and characters in the game, whether in material or in detail, have satisfactory effects. All kinds of shadow, smoke, explosion and other special ef- fects let players who want to be in the real war get a realistic look.
