

**Increase your
business
onboarding
success
with:**

1

Automated verification

that uses firmographic, business health & compliance/AML data to give you the full picture of the business you want to onboard.

2

A business match rate that surpasses current market offerings, boosting onboarding rates and significantly reducing customer onboarding time.

3

The ability to onboard small businesses anywhere in the world with Verification and Decisioning APIs that reach into our detailed **Directory of over 300 million global businesses.**

4

Verification and
decisioning
**results in
milliseconds.**

Your business
customer onboarding
no longer has to take
your team hours or
days per business.

5

With more customers onboarded more accurately in a much shorter time,
Markaaz is the preferred partner
for onboarding verification APIs.

Let's boost your
onboarding.
