

SAP/ERP, ProAxia Consulting

SAP/ERP Consulting

Our experienced SAP consultants totally support your process transformation, core system construction, and its stable operation through upper business consulting, system implementation, development, operation support, and maintenance.

proaxia consulting has experiences of various implementations. Taking advantage of the know-how, reliable implementation method, and project management that we have acquired from this experience, we assure the implementation of each phase in SAP implementation projects. Also, we are available for international projects cooperatively with proaxia consulting group AG. in Switzerland and other global network.

- Process transformation support, project planning/analysis, project management
- SAP ERP implementation consulting (FI, CO, SD, MM, PP, Basis)
- SAP ERP international roll-in, roll-out
- Design and develop add-on functions (ABAP)
- Operation/maintenance support, upgrade support

Be one solutions specializes in providing worldwide rollouts and support of SAP Business One for the global subsidiaries of large enterprises.
