Expatriate for a foreign company

As a foreigner living in Japan, dealing with bureaucracies can be daunting and that applies especially to filing taxes. I needed an accountant to do my tax return who was affordable, competent, and who could speak English. Kaori Fuchi and her staff exceeded all of my expectations. From start to finish, and even after submitting my return, she promptly replied to my emails with clear, concise advice and support. I was even provided with step by step instructions on how and where to file my tax return all in English.

Filing taxes has never been easier. I'm already planning to use [Kaori Fuchi Tax and Consulting](#) for my 2014 tax needs because there's no other competition as they are the best!

Expatriate for a major US apparel manufacturer

I requested help on my Japanese income tax return. I came to Japan as an expatriate of a foreign company, so I knew nothing about Japanese tax systems.

Kaori not only speaks English, but understands what is important to foreigners. She has been a great help to me, as she does everything professionally and promptly. I intend to ask Kaori to take care of my tax matters for the duration of my stay in Japan. Thank you Kaori and I really appreciate it.

Managing an English Coaching & Consulting company in Japan

The Socratic Review improves your English communication skill, advances the client's ability powerfully, effectively and rapidly, and is the only Coaching & Consulting company in Japan that guarantees the goal achievement in English communication skill improvement.

Kaori was recommended to us by one of her clients. Kaori always provides the necessary information promptly. She responds to mails very quickly as well. She talks to the tax office for us to lead the discussions to the right direction. I think that for foreigners doing business in Japan, a quick response is very important. Japanese business practice is at a somewhat different pace to that of Western countries, but her prompt response is always of great help.

Yoga instructor

I work as yoga instructor, body work therapist, and physical therapist. As an American needing to do tax return in Japan, I needed somebody who can advice me about this. Kaori was really kind! Dealing with tax matters in a foreign country in foreign language has been like walking in a dark jungle. It caused me a great stress and fear, but everything was made clear and I was really relieved. It was really reassuring to have somebody explain in English.

Tax Control, Investment Control and Asset Control on Properties

We chose Kaori Fuchi Tax and Consulting because we felt they offer high quality service to their clients. We also ask the office to act as our administrator of tax payment. Working with Kaori has been a good learning experience for us. She speaks fluent English and therefore can communicate with us properly.

Owner of oversea real estates

I met Ms. Fuchi in July 2011. I own several assets (rental properties) in USA as I lived in USA for a long time, so when I immigrated to Japan I needed advice regarding their treatment in tax return. I got an impression that she grasps client's need very quickly and provides precise advice. I consulted Ms. Fuchi as a tax accountant with knowledge on international tax matters, and she appeared to have had experiences in variety of cases and has answered to the contents of my consultation very accurately. I assume there had been a thorough preparation behind it. She also followed up after the meeting, and I am really grateful for her sincere handling of my case.
