The screenshot shows a mobile application interface with a dark grey background. At the top, there is a red status bar with the text "Carrier" and "9:31 AM". Below the status bar, the word "ALUMINA" is displayed in a large, bold, white font. The main content is a paragraph of text in a smaller white font, which is partially obscured by a semi-transparent red box. The text reads: "Alumina is the oxide of the metal Aluminium. In the Periodic Table, Aluminium belongs to group 3-A and is associated with Boron (from which the remedy Borax is made). Alumina is one of the greatest anti-syphilitic remedies along with Syphilinum, Aurum and Mercurius. In Syphilinum, there is a total absence of hope which is one of the most essential things to the life of a human being. Phatak mentions: Hopeless despair of recovery total hopelessness." Below the text, there is a white bar with a red play button icon in the center. Below the play button, there are four speed control options: "1/2x", "1x", "1 1/2x", and "2x". At the bottom, there are three buttons labeled "Style" in a white font on a dark background.
