

For those who haven't heard of Lineage 2, it is a massively multiplayer online role-playing game. It was released in South Korea on June 28th, 2003 and quickly became an international phenomenon. For those who decide to play this game for the first time, they may find themselves wondering what clan crest to choose for their character. This blog is here to help with that overwhelming aspect of the newest virtual reality craze – Lineage 2! I've compiled 37 websites with hundreds of clan crests ready for downloading right now, as well as 15 design templates created by some very talented designers over at GameDevMarketplace.com. I will update this blog post with even more clan crests as they become available. Thank you for your time! Ordering Information for Clan Crests: Price includes return shipping, but NOT the order form fee. The cost of the order form fee is covered by the designers, and I will pass that along to you. If there are any issues with your order, let me know, and I will refund your payment minus the cost of the order form fee.
