No

trivia or quizzes yet. Community Reviews. What does it mean to be human? An additional page reference section provides a more conventional account of events in human history. Why does the universe work the way it does? David Christian, Macquarie University. Why are humans so small? Enlarge cover. Frances Hamilton rated it was amazing Dec 01, The work is divided into eight "thresholds" that cover astronomy; the formation of planets and solar systems; the emergence of life and humans, civilization, and industrialization. The flow charts at the beginning of each section felt confusingly designed. Pass all eight quizzes and we'll recognize your success by sending you a Big Historian sticker. Threshold 7: Agriculture How farming sows the seeds of civilization. Email or call us for information about purchasing this item. Seller Inventory BNA. Placing humans in the context of our universe and revealing how and why we got to where we are today, Big History covers Big History blends geology, biology, physics, anthropology, sociology, and so much more to tell one coherent story, taking us right back to our origins and exploring how a unique series of events led to and then impacted human existence: how everything came to be, where we fit in, and even where we are going. Daiya Hashimoto rated it was amazing Dec 16, This growing, multi-disciplinary approach is focused on high school students, yet designed for anyone seeking answers to the big questions about the history of our Universe. Threshold 2: Stars Light Up How stars are born. Customers who bought this item also bought.
