

[HaiNing Jin Tian Textile Co.,LTD](#)

About us

HaiNing JinTian Textile Co.,Ltd was established in 2010 and obtained the import and export rights in Jan,2013. We mainly produce all kinds of apparel fabrics, home textile fabrics, microfiber household cleaning products etc. Adhering to the "integrity, professional, quality, innovation" as principle, we've won the recognition and praise from domestic and overseas customers.

Integrity

In the year of 2013, we was voted as "HaiNing integrity enterprise".

Based on integrity, we get more and more orders because of our good quality products and on time delivery. We signed the confidentiality and stock agreement with the European and American customers. Owing to the thoughtful and meticulous service, we get the trust from our customers and developing our corporation.

Profession

Our company has a professional team consisting of 15 people with relevant foreign trade experience. Our Management has 6-10 years experience in foreign trade. More than 80% of the salesmen have pasted the CET6. Now according to the different products, we are divided into two business departments, with related salesman, assistant, merchandiser, documentation specialist, accounting. We've rich experience in domestic and overseas exhibition, such as Canton Fair, East China Fair.

Quality

We have obtained the [INTERTEK](#) certification from the largest inspection company in the world. Through the strict tests, we make sure all our products are Green and environmental.

Our company always attaches great importance to Brand, and have our own brand: MICROFINE and MILK TOWN with related packing. While Our products are selling to the European and American market,, we're developing the domestic market and guiding the consumer to change the consumption idea. We cooperate with domestic big shipping mall and supermarkets, such as Intime, HuaLian, HaiGang supermarket and so on. Let our Chinese people take the lead in using foreign advanced products.

Not only can do the OEM, but also can use our own brand to access foreign markets directly.

Innovation

We have our own designer and special equipment, has certain research and development capabilities, providing scarce products for the market. For example, we improve the sewing technology for our German client, adding synchronization devices on equipment, greatly extending the service life of the product, won the customer recognition and orders continuously.

Future and prospect

Through the joint efforts of the past few years, the company is developing rapidly. But the goal is far more than that. In the future we are preparing to introduce the foreign advanced automation equipment, constantly improving the product technology content, enhancing brand image, and applying for our own patent.

We firmly believe that: our company must have a better future!

Meeting Room

Advantage of Jintian

Top China Brand;
